

When it
comes to
your family's
comfort,

leave it to
the experts.

Some things in life you can let slide. Your family's comfort isn't one of them.

Winter or summer, insure your family is *truly comfortable* by turning to the experts at CPS. One of the few Carrier factory authorized dealers in Massachusetts, our skilled and friendly personnel have provided exceptional service at competitive prices in Boston's Metrowest, Middlesex and Eastern Worcester counties since 1991.

CPS technicians work with most types of heating and cooling systems and indoor air quality products. We provide duct cleaning services that keep your indoor air clean—and keep your heating and cooling systems running efficiently. Maintenance program customers receive a customized plan specifically to meet their home's needs. Our customers know that no matter when a problem might occur, they will receive 24-hour, seven-day emergency service.

While our range of services may be similar to those offered by other top HVAC companies in New England, what makes us different is a commitment to exceptional service that few can match. We only hire the best people to comprise our staff. Employees are given background checks and random drug testing, and are expected to hold to a strict code of conduct and ethics.

Our credentials are many: member, the Better Business Bureau; Air Conditioning Contractors of America, National Air Duct Cleaners Association and National Association of the Remodeling Industry. As a concerned member of the community, we work with Boys & Girls Clubs and community outreach programs.

Call us today for a free no-obligation in-home estimate.
